Automated CDD Renewal Application

Our Ref:

Compliance/ N007Q

Release Date:

03rd July 2026

Closing Date:

17th July 2026 16:00

Released by:

SICOM Compliance Dept

Submission:

By email to compliance@sicom.mu

1. Request for Quote

SICOM Compliance Department invites quotes from suppliers to develop and install a CDD Renewal application to automate the request and receipt of updated documents from Individual and Corporate customers at a frequency based on their Risk Rating.

This RFP proposes a custom developed on premises application. The bidder may propose a different solution (e.g. an existing platform) or a different design which can achieve the same business requirements.

2. Background

SICOM group a non-banking Financial Institution, has customers (Corporates & Individuals) within SBUs registered with the Financial Services Commission and the Bank of Mauritius, across several business lines

e.g.

SBU	Lines of Business	Number of Customers
SFSL	Fixed Deposits, Leasing, Secured (Housing Loans) and Non- Secured Loans (Speedy Loans).	8,000
Life	Life & Group Life	50,000

Customers are classified as High Risk, Standard Risk or Low Risk, after a **Customer Risk Assessment (CRA)**.

Staffs do the CRA each time a customer transacts with SICOM.

In addition, it is required to renew the **Customer Due Diligence (CDD)** exercise for Customers at regular intervals depending on their Risk Rating.

Risk Rating	Interval for renew CDD Exercise
High	Every 1 Year
Standard	Every 3 Years
Low	Every 4 Years

The date the CRA has been done, its working and resulting risk rating is presently recorded in SICOM **Customer Onboarding Platform (COP)** – an in house developed, on-premises Oracle application.

The CDD Renewal Exercise is presently done manually and consists of the following actions:

1. Send email to Customers to request updated documents (Proof of Address less than 3 months, NID, Marriage Cert)
2. Request also asks the Customer whether its key Risk data (See Annex A) has changed and if yes, to provide the updated data.

3. Receive documents and validate them. Validation means checking that the submitted document is effectively of the mentioned type, as listed above.
4. Record Validation User/ Date & Time
5. Save validated documents in COP for the Customers
6. Do a new CRA in COP based on the updated Customer key Risk Data.
7. Send up to 3 reminder emails (after 15 days, 30 days and 45 days) if no response received from customer.

3. Scope of the Automated CDD Renewal Application

- 3.1. Read Customer information from COP (via an Oracle View) daily
- 3.2. Initially send CDD Renewal Requests to all Customers (Email template to be provided)
- 3.3. The CDD Renewal Request is to
 - 3.3.1. submit updated KYC Documents
 - 3.3.2. update Critical Customer Risk Data.
- 3.4. Alert (on Dashboard and by consolidated email) for Customer Risk Rating Changes daily.
- 3.5. Later, send CDD Renewal Requests 60 days (parametrable) before renewal is due based on Risk Level
- 3.6. CDD Renewal Date is calculated from last CRA Date.
- 3.7. For Low and Standard Risk Customers, at the same time as sending CDD Renewal Requests, duplicate CRA in COP, assuming no change in Critical Customer Risk Data (via an Oracle Stored Procedure or API to be provided).
- 3.8. For High-Risk Customers, the Automation will still send the requests and will prompt Staffs to do CRA, 60 days before renewal is due.
- 3.9. Receive CDD Renewal Responses.
- 3.10. Preliminary check on documents received by AI (if feasible)
- 3.11. Display checked documents for staff validation.
- 3.12. Save validated documents in COP (via API to be provided)
- 3.13. For Customers having indicated a change in their Critical Risk data, present the data to Staffs to update CRA.

- 3.14. Control user access (View Requests/ Validate documents) to Customer Records by SBU. (Staffs work within SBUs and will have permission to view Customers in their SBUs. Customer-to-SBU mapping will be available in the Oracle view from COP)
- 3.15. Generate Renewal letters by PDF to be printed in bulk for Customers without valid email addresses
- 3.16. Monitor various Statuses of CDD Renewal Requests
 - 3.16.1. Request Status: (New / 1st Reminder/ 2nd Reminder/ 3rd Reminder)
 - 3.16.2. Delivery Status: (Sent/ Delivery Failure)
 - 3.16.3. Outcome Status: (No Response, Invalid Doc Received, Partial Doc Received, Completed, Closed)
- 3.17. Send up to 3 Reminders to Customers depending on Statuses.
- 3.18. Record all correspondences sent/ received for each CDD Renewal Request within the request, for audit purposes.
- 3.19. Allow users to receive and reply to ad hoc customer emails pertaining to the CDD Renewal Requests and also save the correspondences within the Requests.
- 3.20. Monitor and action Email Delivery Failures in Sending Mailbox
- 3.21. User Dashboard for user actions and Management Dashboard for overall monitoring

4. Objectives of Automating the Compliance Application

- (i) To automate CDD Renewal Exercise and thereby saving staff time and effort
- (ii) Ensure timely CDD Renewal requests to all customers
- (iii) To record CDD interactions with customers for Compliance Audits
- (iv) To provide Live Risk Rating/ KYC Status of customers on Dashboards

5. Integration Tools to be provided by SICOM

To automate the above process, SICOM shall provide

- (i) A dedicated M365 email account for the Automation Application
- (ii) An Oracle view of customers from COP giving the following fields (and others, if available, as required)

Customer Number, Customer Type, Customer Name, Customer Email, Date of Last CRA, Risk Rating (H/S/L), Last Transacting SBU

- (iii) API to save document (Base64 encoded) in SharePoint Document Repository for COP (returning Doc ID)
- (iv) API to record Doc ID above and Document details in COP database

- (v) API to duplicate last CRA in COP

6. Functional Requirements

SN	Requirement	Details	Bidder's Response
1.	Internal Processes	See Annex A for the different processes to be implemented	
2.	Multi Company and User Access Management	Application will be multi-company and users will be assigned to companies (SBUs). Users will have access to customers within their companies.	
3.	Common Customers	Customers common to more than 1 SBU should receive CDD Renewal Request only once. The last transacting SBU will be responsible to validate Customer docs. (The Oracle View from COP will have 1 row per customer).	
4.	Dashboard	- No of Customers per Risk Rating - Customers whose Risk Ratings have changed in the last 7 days - Docs to be validated - Emails not sent/ Delivered - Other Query emails from Customers	
5.	Query by Customer	- Changes in Risk Rating - Email requests and reminders sent for CDD renewal - Other Correspondences sent to and received from Customer	
6.	Email Templates	- Different HTML templates to send emails (1st Sending/ Reminders, Corporate / Individual), & depending on Risk Rating docs may vary. - The templates should be maintainable.	
7.	PDF Letters	Bulk printing for Renewal Letters for Customers without valid Email Addresses	
8.	Digitalisation of Critical Customer Risk Data	Digitalisation of Form in Annex A	
9.	Preliminary Doc Check by AI	Advise if AI checking is available for received document	
10.	Validation in a Staging Area	- AI-Checked Documents to be validated by human user - Validation Button - Document to be automatically saved in COP after validation	

		In case of failed validation, email requests and reminders to Customer	
11.	Receive other queries from Customers	Can Application receive other queries from customers and display on dashboard for human action?	
12.	Communicate with Customer	Staff to Communicate with Customer from the Customer Folder within the CDD Renewal Application and incoming and outgoing emails to be saved in the Customer Folder	
13.	Reports	Reports should be available for auditors/ Regulator	
14.	Testing	CDD Renewal Frequency should be parametrable e.g. to test the application, it CDD Renewal may be triggered after 1 day/ 3 days and 4 days instead of 1year/ 3 Years and 4 years	

7. Technical Requirements

SN	Requirement	Details	Bidder's Response
1.	Customer Data Residency	On premises at SICOM or in Microsoft 365 or in Data Centre in Mauritius	
2.	Architecture	Submit System Architecture Describe Technology Used	
3.	Hardware Requirements	(if hosted on premises) Bidder to Advise	
4.	Other Requirements	(if developed on M365 or hosted in Data Centre in Mauritius)	
5.	Components	Give Details of application's Database, internal processes, scheduling mechanism and user interface	
6.	Other Communication Channels	Advise if other communication channels are possible (SMS, WhatsApp)	
7.	Malware Checks of received Docs	Advise how check will be done	
8.	User Interface	The CDD Renewal application will be employee facing (SBU and Compliance Dept employees). It should have a User Interface with Username/ password, Dashboard, Query Screens, Report Menu, Audit Log Query etc...	
9.	Update of Key Risk Data	Bidder to describe mechanism how Key Customer Risk Data will be received (See Annex B)	
10.	Document Receiving Mechanism	Bidder to describe mechanism how documents will be received	

11.	Security Mechanism	Bidder to describe Security Mechanisms to protect confidential Customer data the Application will handle.	
12.	Email Address	A dedicated M365 email address will be assigned to the Compliance Application. The Application should monitor the mailbox and take appropriate actions.	
13.	Other Prerequisites required from SICOM	Bidder to advise (e.g. Licenses)	

8. Technical Proposal

Bidder should submit the following:

- 8.1. Its Company Profile and Registration Certificates
- 8.2. Its understanding of the requirements
- 8.3. Filled Functional & Technical Requirements Table
- 8.4. Bidder's Comments on the Flows in Annex C
- 8.5. Description of the proposed solution
- 8.6. Architecture diagram for components of the application
- 8.7. Implementation Plan with milestones
- 8.8. Client References where the bidder has implemented similar systems with a brief description of the functionalities
- 8.9. References of Staffs who will implement the project.

9. Financial Proposal

The financial proposal template for a custom developed solution is given in Annex 2.

If the Bidder is proposing a different engagement model (e.g. Subscription to an existing platform) it may use another financial proposal template.

10. Maintenance and Support

The software should be covered by a Warranty Period of 1 month, after Go Live.

The supplier should propose Local support, after warranty period, renewable on a yearly basis.

Local support should include:

- I. 8 x 5 Support services including minor changes or fine-tuning as required by SICOM.
- II. Any other related configuration.

Note: Bidders should also provide a sample of Service Level Agreement (SLA).

11. Payment Terms

- 20% on order;
- 20% on submission of requirements document
- 20% on start of UAT
- 40% at GoLive

Maintenance Contract

- Yearly in Advance

12. Notes

1. The submission method and closing date are as indicated on the Cover page.
2. The proposal should be valid for 90 days after submission date.
3. The financial proposal should contain all-inclusive price and costing details in Mauritian Rupees or other major currencies. The exchange rates used for evaluation will be as at the closing date for submission of proposals.
4. Any applicable taxes (e.g. VAT) should be clearly indicated in the proposals.
5. Requests for clarifications (if any) should be sent by email to compliance@sicom.mu one week before RFP Closing date. Clarifications will be sent to all bidders
6. SICOM reserves the right to accept or reject any proposal; do part or split procurement; annul the procurement process and reject all proposals, at any point in time prior to the award of the contract, without thereby incurring (i) any liability towards any bidder, or (ii) any obligation to inform any bidder, about the grounds of such action.

SICOM Compliance Dept

ANNEX A: Required Documents for CDD Renewal

Individual Customers

- Proof of Address of less than 3 months
- NID
- Relationship Document if Proof of Address under another name

Corporate Customers

- Latest Financial Statements
- Register of Directors & Shareholders
- Declaration of Ultimate Beneficial Owner
- Updated KYC/CDD (NID/Passport and Proof of Address) of Directors

ANNEX C: Process Flows

	Initial Upload of all Customers	Bidder's Comments
10	Read Oracle View from COP	
20	Email new CDD Renewal Requests for all Customers	
30	Create Requests in Application with status NEW	
40	For Lo & Std Risk customers, duplicate CRA with existing info	
50	For Hi Risk customers, prompt users to do CRA	

	Send Requests (Daily Scheduled)	Bidder's Comments
10	Read Oracle View from COP daily for Customer DB with Risk Rating and Date of last CRA. Save information in Compliance Application database.	
20	Alert on Changes in Risk Rating by a consolidated email to the Manager and on DashBoard	
30	Look for Customers due for CDD renewal in 60 days (parametrable) and email requests	
40	Create Requests in Application with status NEW.	

	Receive Docs	Bidder's Comments
10	How will documents be received?	Bidder to advise
20	Scheduled or instantaneous?	Bidder to advise
30	Receive Docs from clients	
40	Virus Check of Documents	
50	AI Checking of Docs	
60	Show docs on dashboard for user validation (Staging Area)	
70	Validated Docs are saved in COP	
80	Recontact Customers about non-validated / Missing docs	
90	Update Status for each CDD Renewal (Completed if all docs received)	
100	Record actions in Compliance Application (under the Customer)	

	Reminders	Bidder's Comments
10	Check CDD Renewals which are not closed	
20	Send Reminders to Customers after 15/30/45 days (parametrable)	
30	Update Status for each CDD Renewal (see below)	
40	Record reminders in Compliance Application (under the Customer)	

Possible Delivery Statuses for each CDD Renewal Request

- Request Status:
New → 1st Reminder → 2nd Reminder → 3rd Reminder
- Delivery Status:
Sent or Delivery Failure
- Outcome Status:
No Response → Invalid Doc Received → Partial Doc Received → Completed or Closed

	Incoming MailBox monitoring	Bidder's Comments
10	CDD Renewal Application checks its incoming mailbox, say hourly	
20	For Delivery Failures, update Delivery Status of Requests + Show on Dashboard	

ANNEX D: Email Templates

Note: Email templates below are subject to change, hence, should be editable.

- **Individual Customers**

- 1st Sending

Dear Valued Client,

As part of our ongoing regulatory obligations under the Financial Intelligence and Anti-Money Laundering Act 2002 (FIAMLA), we are required to periodically review and update our clients' Customer Due Diligence (CDD) records. We would be grateful if you could kindly confirm whether any of the details below have changed since they were last provided to us:

Information	No Change	Change
Name	☐	☐
Residential Address	☐	☐
Occupation / Profession	☐	☐
Business / Self-Employed Status	☐	☐
Source of Income	☐	☐
Contact Number	☐	☐
Email Address	☐	☐

If there have been any changes, please provide the updated details together with the relevant supporting documentation, including where applicable:

- A valid copy of your National Identity Card (NIC) or passport; and
- A recent proof of address (e.g. utility bill or bank statement issued within the last three months).
- Details of new occupation, employer, business activity or source of income; and
- Updated contact details.

The documents may be submitted via:

- Reply to this Email: [INSERT EMAIL]
- WhatsApp: [INSERT NUMBER]
- By visiting any of our offices

Please note that the information provided will be used to fulfil our legal and regulatory obligations. Your information may be accessed and shared within the SICOM Group and its affiliated entities, strictly on a need-to-know basis, for compliance, risk management,

operational, and customer servicing purposes, subject to appropriate confidentiality and data protection safeguards.

Should you require any assistance or further information, please contact us at [INSERT CONTACT DETAILS].

We thank you for your cooperation and continued trust in SICOM Group.

Yours sincerely,

[Name]

[Designation]

SICOM Group

- **Reminders**

The Template will be provided before Implementation.

The final reminder will also include:

If we do not receive a response within two (2) weeks from the date of this final reminder, we will assume that your personal information and contact details remain unchanged and we will continue to rely on the information currently held in our records, subject to any future verification requirements or regulatory obligations.

- **Invalid/ Missing Document**

Template will be provided before Implementation.

- **Corporate Customers**

- **1st Sending**

The template will be provided before Implementation.

- **Reminders**

The template will be provided before Implementation.

- **Invalid/ Missing Document**

The template will be provided before Implementation.

Note: Equivalent PDF letter templates will be provided.

ANNEX E: Financial Proposal Template

The template assumes a custom developed application.

A different template can be used if the Bidder is NOT proposing a custom developed application.
